

Love Songs On The Radio

Here all alone on a stormy afternoon
love songs on the radio

They fill the room with an audio perfume
killer love songs on the radio

With a hungering need that makes a soul bleed
haunting love songs on the airwaves

Searching for you I know that it's true
like the love songs on the radio

With the TV on comes a sexy love song
now they're doing it with a video

Driving my car or alone at the bar
hearing love songs on the radio

The juke box wails to the clink of glass
lonesome love songs fill the room

With an audio perfume heart wanting to bloom
damn love songs on the radio

Can't get away in my mind I play
with the love songs on the radio
