

Time

When the talks aren't going good, make something with your hands
As it grows you know, because you're dry, there it stands.
Get an old trailer, fix it all up
Stand back and admire, while drinking a cup.
Write a song that menle will sing
What to your heart would that bring.
Now's the important part to be done
Tell that drinker in your head like he's the son.
Say it straight like a challenge flung
Without this dry the song couldn't be sung.

Terrence Michael Wall
